

# Healthcare Management Levels 6 and 7

For those that wish to be able to plan and lead positive transformation within the healthcare sector.

## Level 6 Diploma Core Units

- International Healthcare Policy
- Managing Quality and Service Delivery
- Leadership and Management
- Research Project
- Personal Leadership and Management Development

### Choose one from the following:

- Managing Finance in the Public Sector
- Financial Decision Making for Managers

## Level 7 Diploma Core Units

- Organisational Behaviour
- Research for Senior Managers
- Managing Finance in the Public Sector
- International Healthcare Policy
- Developing Organisational Vision and Strategic Direction
- Manage Continuous Organisational Improvement

There is also a range of optional units for both Diplomas which allow specialisms and complete the required 120 credits.

ATHE's level 6 and level 7 qualifications in Healthcare Management provide the knowledge and understanding needed for those planning to or working in management in the healthcare sector, both internationally and in the UK, and include optional units that are specifically targeted at those working in the public sector.

Whilst the core knowledge and concepts of management are still very much applicable for a manager in the healthcare industry, there are also some specific areas where managers transferring from other industries may struggle. These qualifications consider and address those areas, strengthening the learner's skill set for a healthcare manager position.
